INTRODUCTION

In 1948, with the purchase of a Chapman Brothers catalogue, Floyd Hazelwood began forming the numismatic library presented herewith. In the early 1960's, many fine works were acquired from the libraries of Lewis M. Reagan and Loyd Gettys. A number of important works were also, at one time, in the libraries of A. E. Kelpsh and Dr. J. P. Celis of Manila.

Active in all phases of numismatics, Mr. Hazelwood served as the third president of the Wichita Coin Club and is a life member of the American Numismatic Association. He also pioneered the manufacture and distribution of the 2x2 coin holder.

The briefest perusal of the catalogue will attest to the wide range of the Hazelwood library. The preponderance of classic texts is, to say the least, impressive. It should be noted that there are also many important and seldom available titles offered in the balance of the sale.

Condition is described in the terminology of the antiquarian bookseller. Except as noted, it may be assumed that copies are in acceptable clean secondhand condition, without major defects. Unless noted, books are generally in the octavo size range. Auction sale catalogues and periodicals are generally in paper covers; books are usually hardbound.

Valuations are a guide only. Many of the seldom offered works will surely exceed estimate. Conversely, some titles will likely sell at or below the base value. Lots will be available for inspection by appointment. Mission Viejo is an hour's drive South of Los Angeles, 20 minutes from Disneyland. Transportation can easily be arranged.

Our thanks and sincere appreciation are due Mr. Hazelwood for allowing us to acquire his fine library and to the many consignors who have entrusted to us their valued properties.

I wish some industrious person
would write a book on the immense
debt that civilization owes to the man
who amasses books, if he never does
anything else.
